HUNKELER

All in One

VARIWEB; the modular Web Finishing system for the production of a rich variety of multi-functional means for organization, communication, and advertising. State-of-the-art technology and setting aids, needs-oriented systems solutions and the unique modularity guarantee:

Benefits:

- | | |
|--|---|
| Highest flexibility | ▶ large product variety |
| Shortest set-up and make ready time | ▶ highest economic efficiency |
| Excellent process reliability | ▶ minimum process waste |
| Modularly expandable | ▶ needs-oriented systems solutions |

Efficiency - Quality - Performance

Operator friendly

State-of-the-art control technique and easy to handle operation elements reduce the set-up and make-ready time to an absolute minimum.

Format independent application

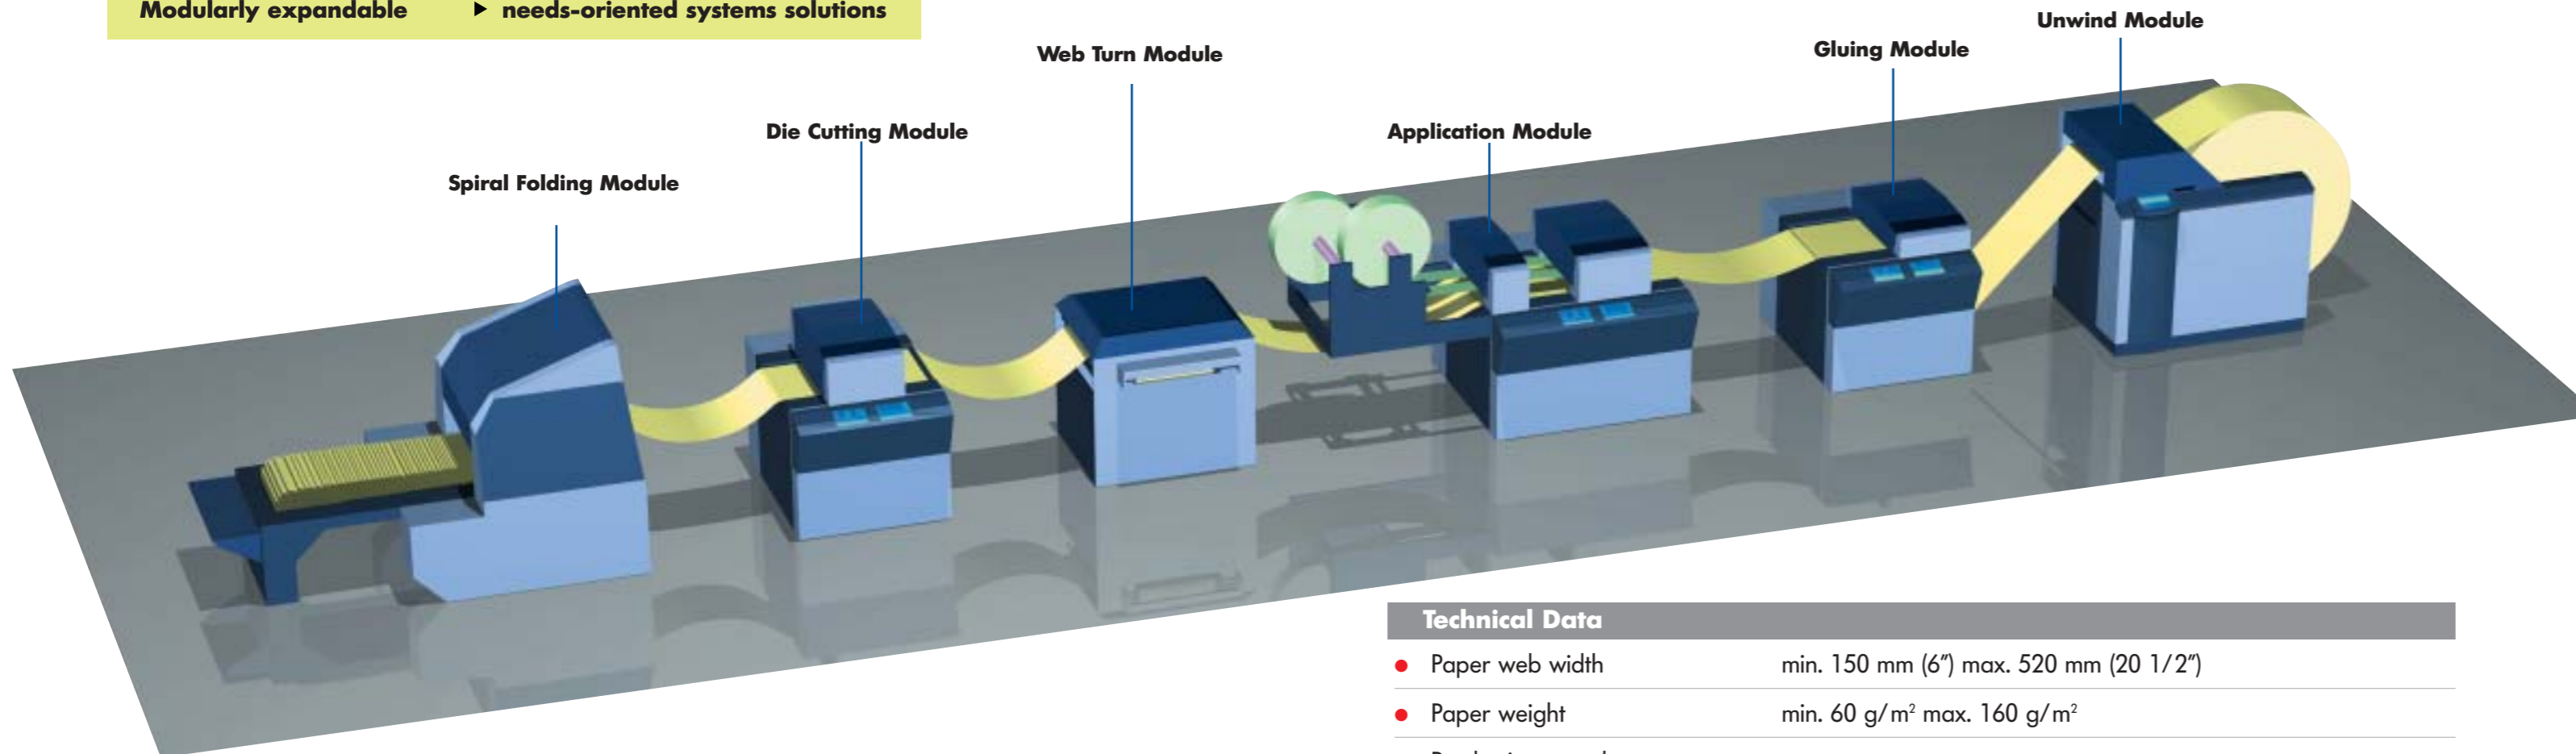

The requested cut lengths and repeat lengths can be adjusted format independently by computer display.

Accuracy

The most accurate application of glue and application material combined with exact kiss and die cutting guarantee a constantly high-quality product.

Technical Data

- | | |
|-------------------------------------|--|
| • Paper web width | min. 150 mm (6") max. 520 mm (20 1/2") |
| • Paper weight | min. 60 g/m ² max. 160 g/m ² |
| • Production speed for formats > 8" | max. 150 m/min (dependent on product) |
| • Web direction | from right to left (standard) |
| • Paper transport | pin (standard) pinless (option) |

(Subject to change)

Modularity

VARIWEB solutions are most efficient: In accordance with the market needs, one can arrange the modules for the requested production lines. Expansion of the line is possible at any time. The Hunkeler manufacturing and state-of-the-art drive technologies guarantee individual solutions with maximum quality.

Examples of modular VARIWEB production lines:
