Your mailing list is growing. You're ready to step up to a reliable high-quality addressing system that's a breeze to use, but also light on your wallet.

The RENA Systems Envelope Imager CS was designed for you. It's the only entry-level system that prints full process photo quality color, making it perfect for high impact, low volume mailings. Now you can dress up your letters and envelopes at a price you can afford.

The tabletop Envelope Imager CS uses HP PhotoSmart software and print technology. Take advantage of a full array of colors and TrueType fonts to add exciting attention-generating photos, graphics and logos.

Economize your mailings by printing barcodes to meet postal pre-sorting guidelines. The system is extremely user-friendly and sets up super fast. Just connect it to your PC's USB or parallel cable port and get ready to start dressing up your mailings.

Like all RENA Systems products, it's built in America with high-grade steel and metal construction for unsurpassed reliability. So get started in affordable quality full color mailings with the best – RENA Systems' new and innovative Envelope Imager CS – ounce for ounce, color for color, you'll realize the benefits for mailings to come.
